MEMORANDUM FOR: Chief, Documents Division, OCR

ATTENTION :  25X1A

SUBJECT : Procurement of OIR Reports on Far East

1. It is requested that arrangements be made to furnish this office with twenty (20) additional copies of all intelligence reports on the Far East area put out by State/OIR. These should be in addition to the six copies of such studies now furnished, making a total of 26.

2. Up until a short time ago, OCR serviced us most satisfactorily in procuring a similar number of additional copies of studies on this area, under a system by which our request was made after receipt of the original dissemination and by citation of each individual report required. However owing to a reduction in the number of copies reproduced, and particularly in the number of copies retained in their files, State informed us through OCR that such requests could no longer be fulfilled. You are entirely free to explain this circumstance to State if you find it desirable, since you may well consider it pertinent for State to realize that it is a change in their procedures that has prevented us from continuing to obtain materials urgently needed here under a method which was entirely satisfactory to us.

3. When the requested arrangements are made, the additional copies should be forwarded to this office through normal channels.
